### **E2/P2 – ENERGY EFFICIENCY AND POLLUTION PREVENTION CONFERENCE TO BE HELD SOON IN SALT LAKE CITY**

The University of Utah's Engineering Experiment Station and the Pollution Prevention Association are sponsoring an Energy Efficiency and Pollution Prevention Conference on November 7 - 8, 2002 at the Wyndham Hotel - 215 West South Temple in Salt Lake City. The E2/P2 conference is all about efficiency - in energy use, environmental planning, and pollution prevention. David Garman, Assistant Secretary of the U.S. Department of Energy, will give the keynote address. Sessions will include discussions on sustainable communities, new and renewable energy technologies, and an environmental regulatory update. Hybrid automobiles from Honda and Toyota and a solar-powered vehicle will be discussed and on display, and energy efficiency for the homeowner will be discussed. Pollution Prevention awards will showcase successful P2 efforts.

Day two includes a field trip throughout the valley showing examples of successful E2/P2 projects, including xeriscaping, wind power, the Olympic ice oval, and Utah's most energy efficient home. Come share experiences with Utah companies that are leading the way in energy efficiency and pollution prevention.

Registration for the conference is \$90 and \$30 for students. For more information please call (801) 581-6348 or visit us on the web: [www.utah.edu/uees/E2/P2](http://www.utah.edu/uees/E2/P2)
